### Productive

- All power (112 foot-pounds of torque) can be driven to center deck alone for mowing exceptionally tall or wet grass
- High/low range lets you mow at speeds of up to 8.6 mph; transport between mowing sites at speeds up to 14.4 mph
- Full time or on-demand 4WD provides excellent traction; foot-activated differential locks can add traction for hillsides and slippery conditions
- 22 gallon fuel tank provides all-day mowing without refueling; fuel fill is outside the hood

### Reliable

- High-torque, turbo-charged, 57-hp Yanmar diesel engine delivers exceptional mowing power while still ensuring fuel economy
- Exclusive top-draw air-intake system keeps 1600 Turbo running in tough, dry mowing conditions
- Hood and seat platform open for easy access to the engine and drivetrain; all daily service points located on left side of machine for quick and convenient servicing
- Hydraulic drive delivers smooth power to mower decks - allows the decks to float and follow ground contour without belts or shafts restricting deck movement
- Deluxe, shock-absorbing, adjustable, high-back seat with standard armrests and tilt-steering column add to comfort and operating ease

### Flexible

- Almost 11 feet of finishing mower width lets you cover large, open areas faster - up to 68 acres in an 8-hour day
- Three-deck setup (62-inch center deck and two 42-inch wing decks) provides excellent visibility, extra trimming ability, and increased stability
- Wing decks can mow at a far more extreme angle than competitive machines, permitting a professional cut on uneven terrain
- Raise one or both of the wing decks to direct all hydraulic horsepower to the center deck (exclusive John Deere feature)

### Easy to Run

- Patented two-pedal hydrostatic drive provides effortless speed and direction changes
- Standard 2-post Roll-Gard ROPS, seat belt and operator presence safety starting system; available 4-post ROPS offers ability to use weather enclosure
- Standard water temperature gauge
- Standard 50-watt halogen headlights for excellent illumination
- Easy access to power steering valve and electrical connections
- Forward/reverse pedals reduce operator fatigue
- Standard turn brakes provide additional traction on hillsides and tight trimming areas; master stop brake provides stopping power to both drive wheels

- Standard electronic cruise control; beneficial when mowing open areas or when transporting.
- Quick-access foot panel allows quick and easy access to service points
- Standard cup holder and toolbox decreases downtime with quick access to drinks and tools
